ACADEMIC YEAR 2020-2021

MLCU AWARDS 2019

Ranked in Top Level of Private Universities India Today Magazine, July 1, 2019

Out of 450 private universities in the country, Martin Luther Christian University, Shillong was ranked 41, making it to the top level of 42 private universities. It is the only private university in Meghalaya to receive a ranking.

Management Department ranked in Business Today Magazine, November 3, 2019

India's premier business magazine ranked MLCU as 274 among 4500 management departments and institutes in India for 2019.

Top 10 for Newly Emergent Institutions and Student Diversity

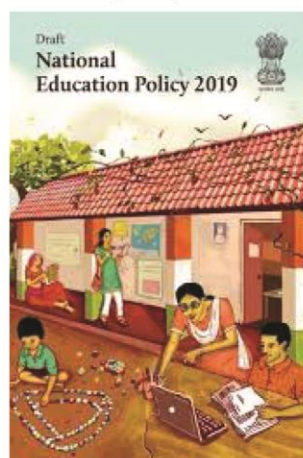

In the **GRAND JURY AWARDS 2019-20 OF EDUCATION WORLD**, India's leading education magazine,

- MLCU was ranked among India's Top 10 Newly Emergent private higher education institutions, with high potential to adopt and integrate 21st century education best practices.
- MLCU secured the 10th rank for Student Diversity
- MLCU was cited for experiential learning, community engagement, and emphasis on continuous formative evaluation rather than examinations, affirmative admissions, and gender-friendly policies. The university was also cited for its breadth of student diversity, focus on learners of various abilities, and individualized learning.

MISSION STATEMENT

To contribute to the sustainable development of Meghalaya and Northeast India, by providing knowledge, skills and values that will enable our students to become global citizens while upholding gender, ethnic and religious equity for all, conserving its bio-cultural heritage, and by recognizing its Christian legacy and commitment.

THE NEW EDUCATION POLICY (NEP) 2019 Is Being Implemented at MLCU from 2020

The Ministry of Human Resource Development, Government of India has designed a new blueprint for higher education in India. The new policy is based on

a multidisciplinary approach of liberal education that provides a broad intellectual foundation to think critically, reason analytically and communicate clearly. The NEP has emphasized the need for 21st century skills.

If higher education is to prepare students for life, for work and for becoming an effective member of society, it is important to provide a holistic foundation of knowledge, skills, and values to view the world from scientific, artistic and humanistic angles. As someone has said, "Wisdom is infinite, but we take hold of a branch and think it is the whole tree."

These objectives recall the four pillars which UNESCO formulated in 1996.

1. Learning to know - acquiring a body of knowledge and learning how to learn, so as to benefit from the opportunities that education provides throughout life
2. Learning to do - acquiring not only an occupational skill but also the competence to deal with many situations and work in teams, and a package of skills that enables one to deal with the various challenges of working life
3. Learning to live together – developing an understanding of other people and an appreciation of interdependence in a spirit of respect for the values of pluralism, mutual understanding and peace
4. Learning to be - developing one's personality and being able to act with autonomy, judgement and personal responsibility, while ensuring that education does not disregard any aspect of the potential of a person: memory, reasoning, aesthetic sense, physical capacities and communication skills.

MINISTRY OF HEALTH AND FAMILY WELFARE MODEL CURRICULA

The Allied Health Professionals Section of the Ministry was launched in 2012. The vast need and potential for allied health professionals boosted training programs and the Ministry created model curricula for these health science degree programs based on skills and competencies. MLCU follows these model curricula in the Allied Health Sciences Department.
